Wellhead & Production Valve Services

COFFER DAM

Guard rails and grading around the dam, allows for a safe secure environment for workers to conduct the job safely and efficiently

CUSTOMER PROPERTY

QES has onsite capabilities to hold Customer production valves.

All equipment is identified, categorized and tagged providing our clients immediate access to their inventory.

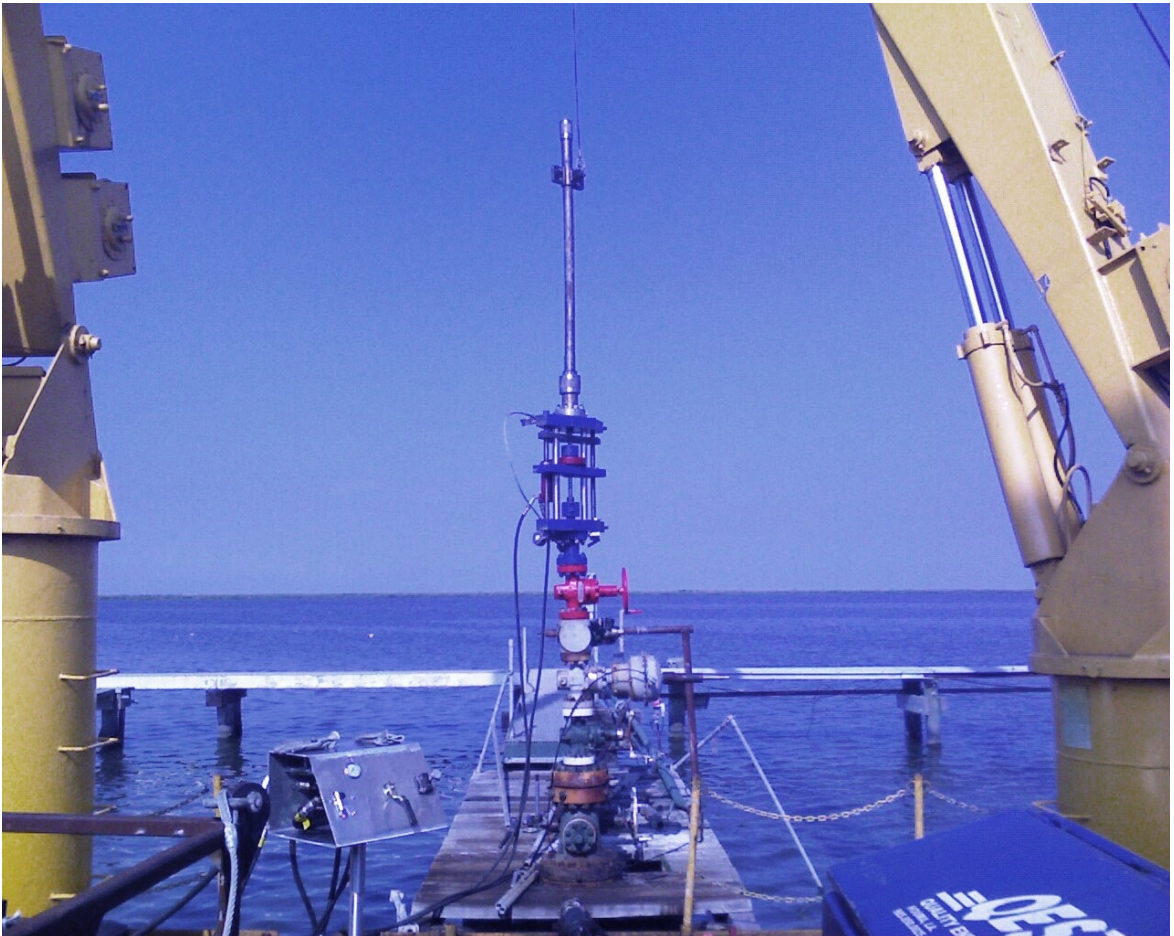

Wellhead & Production Valve Services

HOT TAP

Thru Bore Hot Tap Unit has the capability to drill from 2" to 3 1/16' bores with a pressure rating of 0 to 15,000 psi

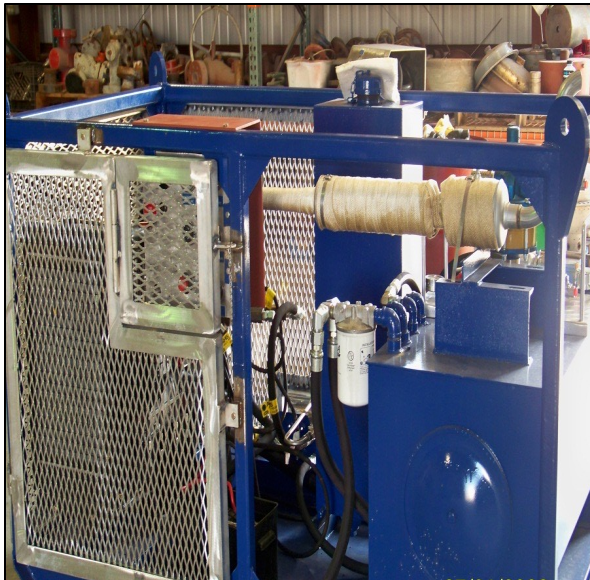

Drill Unit

Quality Energy Services Drill Unit Package consists of the following:

- Power Pac 4-cylinder Diesel Engine, Skid-Mounted with Hydraulic Tank, Fuel Tank and Hi-Pressure Test Pump
- Gang Box with Spare Parts
- All size Drill Bits, Mills, Spade Bits and Motors
- 3-person Operating Crew

VALVE CLAMP

Drill through equipment which is extremely corroded. The concern of placing any pressure on this equipment becomes a safety and environmental hazard.

VALVE SAFETY CLAMP

QES Valve Clamp being used to secure the valve for safe removal

VALVE SAFETY CLAMP

Wellhead & Production Valve Services

Hot Tap Services

Pipe and Casing Valve Hot Tap
Drill from ½" to 2" size bits
Working Pressure – Zero – 3,000#

Wellhead & Production Valve Services

INDIVIDUAL CUSTOM-MADE CLAMPS TO FIT ANY APPLICATION

Wellhead & Production Valve Services

WELLHEAD SERVICE INSTALLATION

MAINTENANCE GANG BOXES

Fully stocked with equipment and parts to grease, maintain or repair production valves

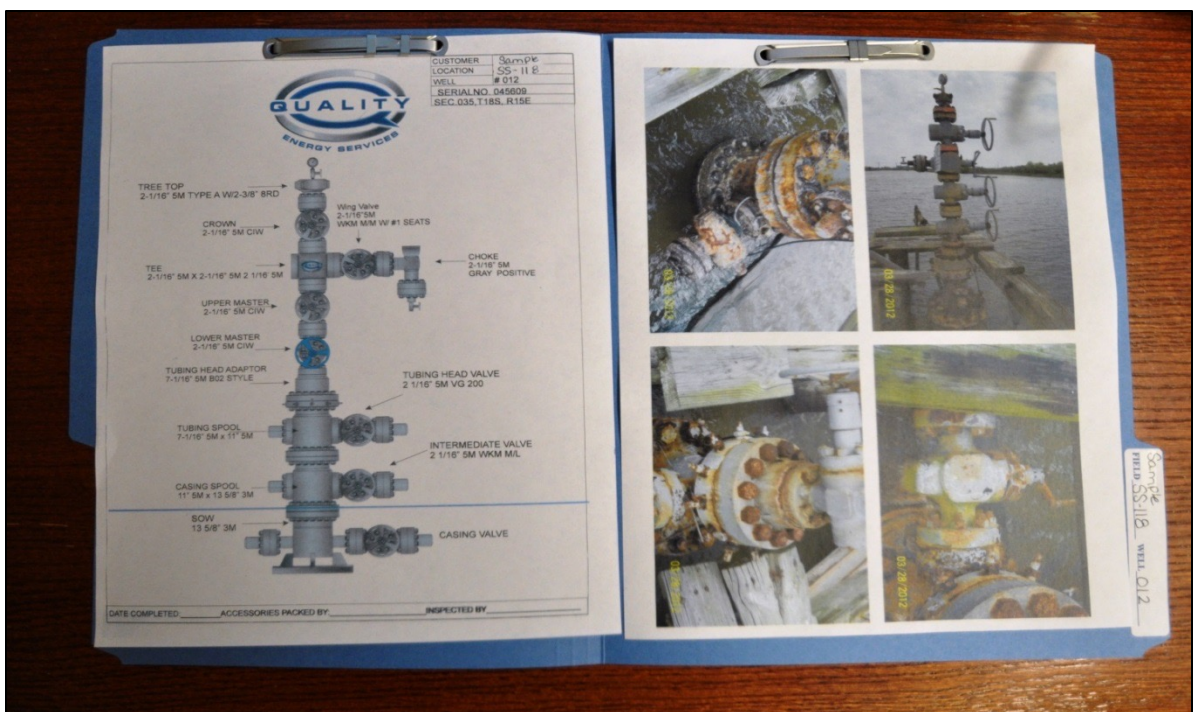

Wellhead & Production Valve Services

SCHEMATIC AND SURVEY FILES

Quality Energy Services maintains a file for each well identifying all valves and equipment.

Wellhead & Production Valve Services

SHOP SERVICES

Quality Energy Wellhead and Valve is equipped to handle all services, repairs and testing

Wellhead & Production Valve Services

PARTS AND PRODUCTS

Quality Energy Valve and Wellhead Department stocks Surplus, New and Remanufactured valves, as well as certified and noncertified parts
